

Alan Perez

Technical Writer

Profile

Skilled and versatile documentation specialist with 4+ years of experience in the semiconductor test field. Documented numerous hardware and software solutions for RF, digital, and analog products. Now seeking opportunities to transform documentation in emerging fields.

Work Experience

Present
↑
2019

Technical Writer

Teradyne, Inc.

- Maintained documentation in a collaborative CCMS environment.
- Documented and updated APIs of proprietary syntax for multiple programming languages. Updated code examples as needed to ensure proper compiling.
- Created DITA-compliant XML content in fast-paced, Agile workflows.
- Developed templates and refined writing standards.
- Curated and edited content from support, engineering, systems, and field teams.

Education

2019
↑
2015

Writing, Literature, and Publishing — BFA

Emerson College

Courses and Achievements:

- Mastered effective writing skills in a variety of styles.
- Honed expertise in nonfiction writing.
- Developed a voice to maximize impact across audiences.
- Proficient in writing articles, reference material, and technical content.

Accomplishments

2021

Content Migration

Migrated content from Adobe FrameMaker to DITA structured authoring to enable online publication. Provided 24/7, on-demand customer access to documentation.

2023

LMS Deployment

Worked with training staff at Teradyne, Inc. to deploy an LMS with revolutionized, interactive customer training offerings.

2023

VB.NET Migration

Supported code example conversion for VB.NET in documentation. Migrated existing VBA examples and verified proper functionality in other programming languages.
